

Haeger[®] 824[™] OneTouch[™] 5e

Maximum productivity and process control with ease of setup

- Industry 4.0 capabilities
- 4 Station automatic lower & upper tool changer
- Fastener sizes M1.5 through M10
- Fast & easy tooling setup on four MAS 350 modular auto feed systems

Options:

- Robot ready

PennEngineering[®]
Leading By Design

Haeger® 824™ OneTouch™ 5e Lite

Fastener insertion system

- All the advantages of the 824™ WindowTouch® 5e
- 2x modular auto feed system
- Second upper station changes upper tools and insertion stations automatically
- Enjoy fastener detection & stud and standoff length detection on two TIS stations

Haeger® 824™ WindowTouch® 5e

- Industry 4.0 capabilities
- Easier and faster tooling setup combined with the most reliable fastener feeding
- Fastener presence and length detection
- 4-Station turret including position monitoring

Options:

- Modular auto feed system and multi-shuttle

Haeger[®] 824[™] MSP[™] 5e

- Industry 4.0 capabilities
- Adjustable positive ram stop as standard
- Haeger's patented safety system
- Tooling protection system and batch counter

Options:

- 4-Station turret
- Modular auto feed system
- Robot ready

Haeger[®] 618[™] MSP[™] 5e

- Industry 4.0 capabilities
- Reliability, performance, and energy efficiency of a fully hydraulic machine
- The Haeger[®] patented safety system
- Tooling protection system and batch counter

Options:

- 4-Station turret
- Modular auto feed system
- Positive stop
- Robot ready
